REFERENCE

Name: Md. Sydul Amin

Position: Mentor

Company: Creative IT Institute

Contact Information: 01641879498

OBJECTIVE

Enthusiastic and skilled Django developer seeking to kickstart my career in web development. Proficient in Python, Django, and related technologies, I am eager to contribute to a dynamic team. Passionate about creating efficient and scalable solutions, I aim to leverage my dedication and expertise to make a meaningful impact at a company and grow as a developer.

SKILLS AND TECHNOLOGIES

Technical Skills:

- **Programming Languages:** Proficient in Python, C, C++, and JavaScript.
- **Back-End Technologies:** Strong expertise in Django framework and Django REST framework for building robust and scalable APIs.
- **Front-end Technologies:** Experience with HTML, CSS, and Bootstrap5.
- **Database Management:** Familiarity with MySQL, PostgreSQL, and SQLite.
- **Version Control:** Working knowledge of Git.

Soft Skills:

- Strong problem-solving abilities.
- Excellent debugging skills.
- Effective communication and collaboration in team environments.

PROJECTS

E-commerce Website

[Live Project](#) | [GitHub Repository](#)

- Implemented user registration with email confirmation and secure payment processing to ensure secure access and facilitate safe transactions on the platform.
- Created a product browsing system that allows users to explore various products available on the website.

Tuition-Finder App

[Live Project](#) | [GitHub Repository](#)

- Implemented user authentication and search functionality for secure sign-ups, logins, and finding tuition options.
- Added notifications to the processes of post views, likes, comments, and applications to enhance user interaction and streamline communication.

Live-Chat Application

[Live Project](#) | [GitHub Repository](#)

- Implemented secure authentication and live chat for secure access and real-time communication.
- Added to-do lists, notifications, and content posting for improved user organization and engagement.

Quizzes Application

[Live Project](#) | [GitHub Repository](#)

- Implemented secure authentication for user access and data protection.
- Offered technology quizzes and displayed results on user profiles for engagement and feedback.
